### DECLARATION / STATEMENT OF COMPLIANCE – ETALON MIX NEEDLES (CARTRIDGES)

Subject: Safety membrane & EU compliance

Etalon Mix hereby declares that all Etalon Mix needle cartridges are equipped with an integrated safety membrane.

This safety membrane is designed to prevent backflow of pigment, blood, and bodily fluids into the handpiece or device, ensuring maximum hygiene and safety during professional procedures.

Furthermore, Etalon Mix confirms that these needle cartridges are manufactured in accordance with applicable European Union standards and safety requirements, and are intended for professional use within the European market.

The Etalon Mix Head Office fully guarantees the safety membrane system and the compliance of the Etalon Mix needle cartridges with all applicable EU requirements.

This declaration is issued as official product documentation and may be used for professional, regulatory, and client information purposes.
